### DETAILED ACTION

1. The written restriction mailed on January 9, 2003 (paper no. 6), which did not consider the preliminary amendment filed on January 3, 2002, is withdrawn, and replaced with the instant action (which does consider said amendment).

#### *Restriction*

2. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

I. Group I, claim(s) 31-55, drawn to method for producing chill rolls.

II. Group II, claim(s) 56-84, drawn to an iron alloy composition for chill rolls.

3. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the special technical feature (iron alloy used for chill rolls) is known, as detailed in the search report.

4. A telephone call was made to Harry Muensterer on January 14, 2003 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
